

REMARKS

The specification and drawings are amended herein to correct a figure numbering irregularity and an element number repetition. No new matter has been entered. Applicants kindly request examination of the application as amended herein. Prompt favorable action is hereby requested.

Respectfully submitted,
GERHARD A. SCHNEIDER, ET AL.

AMENDMENTS TO THE DRAWINGS

Applicants submit herein proposed corrected drawings for Figures 4a and 5 to correct the repetition of element number 420 (a and b) by replacing it with element number 425 (a and b) in order to avoid confusion with element number 420 indicating a different element in other Figures. Kindly review and accept the proposed drawing corrections.
